The rehabilitation of people with physical and multiple disabilities as well as the promotion of scientific research in this field are the objectives of the Fürst Donnersmarck-Foundation, Berlin, which was founded in 1916. The foundation has 600 employees working in the fields of rehabilitation, education and tourism.
The Board of Trustees of the Fürst Donnersmarck-Foundation Berlin, which is dedicated to the rehabilitation of people with physical and multiple disabilities, awards a research prize for neuro-rehabilitation.

The prize money of EUR 30,000 can be distributed between more than one winner. An additional five commendations may also be awarded in the amount of EUR 3,000.

The prize is awarded for current scientific research work in the field of neurological rehabilitation of people with acquired damage to the nervous system. The focus of the work should be on post-clinical long-term rehabilitation, and we are particularly interested in interdisciplinary rehabilitation strategies and methods, as well as the examination of scientific effectiveness and efficiency (outcome research), and how these developments meet the special needs of rehabilitation providers, funding bodies and political institutions (socio-economic effects).

You may submit academic dissertations and theses, published project reports, book publications and specialist journal articles in German or English language which have been completed within the past two years.

The prize will be awarded by the Board of Trustees of the foundation on the basis of the recommendation of a jury made up of scientists and doctors working in the field of rehabilitation.

In your application, please enclose the following documents:

1. The scientific paper(s) or dissertation, with a summary
2. A justification for the submission in terms of the goals of the prize
3. Curriculum vitae with scientific career

The decision of the trustees is final and cannot be contested.

Applications must be submitted in PDF format by 30 June 2015 to:

forschungspreis@fdst.de

In 1916, Count Guido Henckel, Prince of Donnersmarck, set up the Fürst Donnersmarck-Foundation in Berlin as a “major convalescence and treatment clinic” for the war wounded, together with a “Research centre for the scientific study and therapeutic evaluation of the medical experience gained in the current war”.

Today, the foundation runs institutions for the rehabilitation and support of people with physical and multiple disabilities. At the same time it has also set itself the goal of supporting research work in the field of rehabilitation.

In 2006, to mark the foundation’s 90th anniversary, it established a research prize in the field of rehabilitation. The prize will be awarded for the fourth time in 2015.

JURY

Chair
Prof. Dr. Dr. Paul Walter Schönle
Director of the Maternus Clinical Centre for Rehabilitation, University of Konstanz
Trustee of the Fürst Donnersmarck-Foundation

Dr. Guido Graf Henckel von Donnersmarck
Plastic surgeon, Munich
Trustee of the Fürst Donnersmarck-Foundation

Prof. Dr. Karl Wegscheider
Department Chair of the Department of Medical Biometry and Epidemiology, University Medical Center Hamburg-Eppendorf
Trustee of the Fürst Donnersmarck-Foundation

Prof. Dr. Gereon Fink
Director, Department of Neurology, University Hospital Cologne
Director, Institute of Neuroscience and Medicine (INM-3), Research Centre Jülich

Prof. Dr. Dr. Manfred Herrmann
Department of Neuropsychology and Behavioral Neurobiology, University of Bremen

Prof. Dr. Elisabeth Wacker
Faculty of Sports and Health Sciences – Sociology of Diversity chair – Technische Universität München, Max-Planck fellow – Max Planck Institute for Social Law and Social Policy
